

New this year, to try and be fair to all OEMs and teams, we are going to be on a rotation of rigs to hopefully give all teams exposure at some point throughout the season. We will be parking each manufacturer together at each event as most work together. To start off in Michigan, I am starting with Arctic Cat, then Ski Doo and then Polaris and then Yamaha, keeping the same rotation. I will be choosing one team per OEM to park in a visible spot at each event. After that, all others will go in place during their time slots. One team per OEM first and then park all teams from the same OEM as listed below. I feel this is the fairest way to let all OEMs and teams have a chance to show off their sponsors as well as support the sport. This will hopefully be the norm for the rest of the season with a little fine tuning.

Order: Pro and Semi Pro

Friday morning

8:00 am - Christian Brothers, Judnick, Yamaha and BOSS racing

8:15 to 9:00 - All Arctic Cat trailers

9:00-10:00 - All Ski Doo Teams

10:00-11:00 am - All Polaris teams
